

# INTERNATIONAL TALENT ACADEMY

*Performing & Liberal Arts School for Children*

## ITA BOY SCOUTS WORKSHOP SERIES

*These workshops are intended for 1-6 hr sessions and will be custom designed for each individual group.*

### DRAMA

This class is designed for those of you who have always wanted to build their confidence and act on stage! Students will learn and develop important tools & skills of an actor: body, voice and imagination through theater games, creative movement and acting exercises.

### TEAM BUILDING

Students will learn effective team building strategies through role playing, activities and interactive games designed to strengthen their listening and leadership skills in a team environment, and work through mock difficult situations by recognizing and utilizing each team member's strength.

### PUBLIC SPEAKING

Effective public speaking skills are critical in our increasingly competitive world. You will need to develop these skills if you hope to: make a presentation, interview for a job, compete for a leadership role, get a scholarship, or persuade people to listen to your ideas. This class will help the student overcome public speaking anxiety; learn about effective communicators throughout history and different methods of writing and delivering their own speeches.

### MUSICAL MATH

Research shows that learning music at a young age enhances math ability. Musical Math is a unique program which integrates music into the math curriculum while teaching note values and fractions, division & subtraction, and much more! The program benefits both music and math students to better understand music/math theory & learn different **math concepts** in a fun and creative atmosphere. If, for some reason, you don't like math, you will love it in this class!

### ETIQUETTE: SOCIAL SKILLS & TABLE ETIQUETTE

In the Social Skills workshop, participants will learn about how to introduce themselves and ask questions, how to make the first impression and read body language, and much more. At the Table Etiquette workshop, we would like to invite everyone to dress up and learn all about dining skills and table etiquette. Both workshops include fun learning and interactive games and activities.
